

# Cloud Video Conferencing in a Breeze Easy for Users and Admins

As companies digitally connected and adapt to remote working, easy communication is vital to foster teamwork and improve productivity, especially during the challenging times. Say goodbye to what makes your meeting complex. With Yealink Meeting, cloud video conferencing is easier from start to finish, with any device at any workplace.

## 01

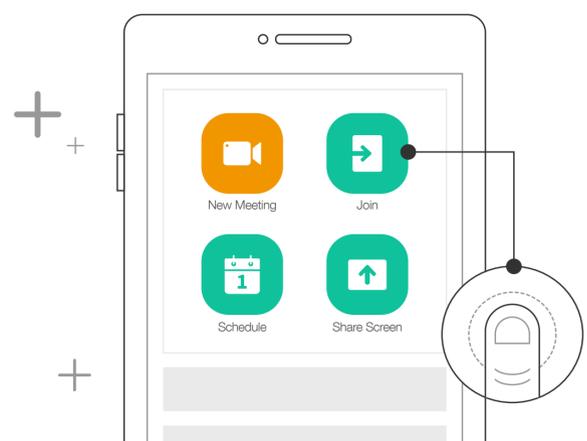

**Any device, from anywhere, at anytime**

**One-click** starting and joining a meeting, from mobile device, laptop or any room system.

## 02

**Zero-learning for users**

**Smart user interface** makes everything easy from start to finish.

## 03

**Real-time interaction**

**Wireless screen sharing** is just a click away. You could choose collaboration touch panel for realtime interactive whiteboarding annotation and touch meeting control.

## 04

**Easy for admins**

**Virtually no manually management.**

Room devices could be configured automatically once powered on and updates on its own.
